E-Commerce Order Support Knowledge Base

1. Order Cancellation Policy

Customers can cancel an order within **30 minutes** of placing the order, provided the order has not entered the shipping process.

Orders that have already been **shipped cannot be cancelled**.

If a customer wants to cancel an order, they should provide their **order ID**.

If the order is already being processed or shipped, cancellation may not be possible.

---

2. Order Status

Customers can check their order status by providing their **order ID**.

The available order statuses are:

- PLACED
- CONFIRMED
- PROCESSING
- SHIPPED
- OUT_FOR_DELIVERY
- DELIVERED
- CANCELLED

Customers should contact customer support if the order status has not changed for an unusually long period.

---

3. Refund Policy

For eligible cancelled orders, the refund is normally initiated within **24 hours** after cancellation.

The refund may take **5–7 business days** to appear in the customer's original payment method.

The actual refund time may depend on the payment provider or bank.

If the refund has not been received after 7 business days, the customer should contact customer support.

---

4. Return Policy

Customers can request a return within **30 days of delivery** for eligible products.

Products should generally be:

- Unused
- Undamaged
- In their original packaging

Some products may not be eligible for return.

Customers should contact customer support if they are unsure whether a product is eligible for return.

---

5. Shipping Policy

Standard delivery normally takes **3–5 business days** after an order has been shipped.

Delivery times may vary depending on:

- Customer location
- Shipping carrier
- Weather conditions
- Operational delays

Customers can use their order ID to check the current order status.

---

6. Delayed Orders

If an order has not arrived within the expected delivery period, the customer should first check the order status.

If the order is still showing **SHIPPED** or **OUT_FOR_DELIVERY** for an extended period, the customer should contact customer support.

The support agent should not provide an estimated delivery date unless reliable information is available.

---

7. Damaged Products

Customers who receive a damaged product should contact customer support as soon as possible.

They may be asked to provide:

- Order ID
- Product details
- Description of the damage
- Photos of the damaged product

The support team will determine whether the order qualifies for a replacement or refund.

---

8. Missing Items

If an order is delivered but one or more items are missing, the customer should contact customer support.

The customer should provide the **order ID** and details of the missing item.

The support team will investigate the order and determine the appropriate resolution.

---

9. Customer Support Fallback

If the available knowledge base does not contain enough information to answer a customer's question, the support agent should **not make assumptions or invent an answer**.

Instead, the agent should tell the customer that the information is not available and recommend contacting customer support.
